

Wings of Faith is Faithful to the Call

■ The Wings of Faith Open House that took place in June was a great success thanks to the wonderful team behind the scenes who put it together and thanks to our friends and partners who joined us at our hangar in Corona.

Great food served from our own Corona Airport Café

The fellowship, food, and flights made the event special. We always welcome newcomers and invite them to attend our monthly breakfast meetings at Carrows in Corona.

In the last six months, Wings of Faith partners have helped us provide many vital services to the Native Americans. What a blessing it is to see the accomplishments of our ministries this year. Here is a snapshot of some of them.

Wings of Faith is in the process of repairing three different church roofs on reservations. We are finished with replacing the church roof and air conditioners on the Native American reservation near

Parker, AZ. Daphne Hill-Poolaw is a missionary to several tribes in the area that have not always been able to attend church due to the bad condition of the roof. Recent monsoons caused major leaks and the AC was no longer working. Extensive repairs were done and new equipment was installed. This project was very costly and we appreciate all our partners who made this happen. The two other roof projects are near completion also at Eagle Faith Ministry, Declon, AZ, and Pastor Kenny's church in Redding, CA.

We currently serve 30 tribes with food, clothing, shoes, Bible materials, and Sunday school ma-

terials. They are very grateful for everything that Wings of Faith is providing for them.

Wings of Faith is excited to tell you that we have added three new mission locations in Northern California, Nevada, and Arizona. Please pray for the three new missionaries as they serve: Darrell Garity, Jose and Lupe Franco, and Davidson Davis. Thank you all for coming on board with our ministry team.

Thank you to all our hard working volunteers who sacrificially give their time including pilots, mechanics, administration, warehouse helpers, and the website team. Partners, we want to do even more for the Lord and appreciate your prayers and support.

Wings of Faith Ministries, Inc.

Consider how you too may become a partner with W.O.F. or a field representative!

Wings of Faith Ministries Open House

3 new heatpumps installed!

Everyone here at Wings of Faith Missionary Aviation is a volunteer and raises their own support! Funds generated through the generous financial support of our faithful partners help maintain our aircrafts and keep us operational. Bibles, Sunday School and other Gospel outreach materials are supported by your donations.
